Maritime

Call year:

2019

Location of the Action:

Spain

Implementation schedule:

May 2019 to June 2023

Maximum EU contribution:

€6,315,407

Total eligible costs:

€31,577,035

Percentage of EU support:

20%

Coordinator:

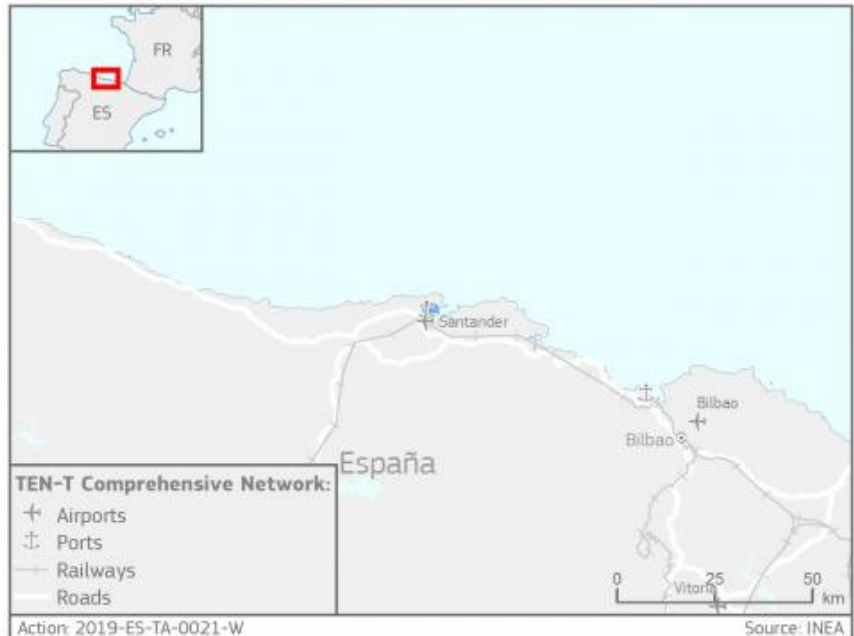

Repsol LNG Holding S.A. (Spain)

Status:

Ongoing

LNGHIVE2 Santander

2019-ES-TA-0021-W

The Action is carried out in the Spanish Port of Santander located on the TEN-T Comprehensive Network. It aims to build a LNG bunker supply terminal and the necessary infrastructure to allow the berthing of the LNG fuelled vessels. It is part of the LNGHIVE2 Global Project, the Spanish flagship initiative for the LNG marine fuel market development in Southern Europe.

The Action will realise the studies to obtain the permits for the terminal construction. A new dock will be realised, including a Ro-Ro ramp. For the LNG terminal, engineering, civil works, equipment installation and commissioning are foreseen. Training of the personnel of the port is planned.

Main benefits will be in terms of sustainability of maritime transport, safety and security of supply.
